May 5, 2017

TO: The Wisconsin Legislature, Governing Bodies of the Local Governmental Units, and interested parties within the Bay-Lake Region

Since 1972, the Bay-Lake Regional Planning Commission (BLRPC) has proudly served the counties and communities of Northeastern Wisconsin. Annually, a report is prepared to provide an in-depth overview of the Commission’s five planning programs and the work performed within each of them during that year. This report is provided to the Governor, Wisconsin Legislature, and to the governing bodies of the 185 units of government within the eight-county region in accordance with the requirements of s.66.0309(8)(b), Wis. Stats.

The BLRPC continues to serve as an Economic Development District for the Economic Development Administration (EDA) and as the Sheboygan Metropolitan Planning Organization (MPO). Levy funds are utilized to leverage these two programs, along with the Regional Transportation program and Wisconsin Coastal Management projects. These activities offer the counties and communities a variety of cost-effective services for local initiatives ranging from planning to grant writing to GIS.

In 2016, the BLRPC staff worked on some very challenging projects, including continued work to control the spread of the Emerald Ash Borer, phragmites mitigation, and a host of other projects. Updating zoning ordinances was a huge component of our community assistance work program, with work being done for the towns of Brazeau, West Kewaunee, Casco, Red River, and Luxemburg. The comprehensive plan update for the Bay-Lake Region was completed, along with work done on plan updates for the towns of Manitowoc Rapids and Riverview, and for Kewaunee County. Coordinated Public Transit – Human Services Transportation Plans for Sheboygan, Manitowoc and Kewaunee counties were also completed in 2016. In addition, the 2016 Public Participation Plan for the Sheboygan MPO and the 2017-2020 Transportation Improvement Program (TIP) for the Sheboygan Metropolitan Planning Area were both approved. Our GIS/Mapping department created Sexual offender residency maps for the Village of Wausaukee and the City of Gillett, as well as assisting other staff with mapping and GIS work. The BLRPC staff also continued to assist the City of Sheboygan with its HUD Community Development Block Grant (CDBG) and Revolving Business Loan administration. As always, we appreciate every opportunity to work with our local, state, and federal partners to address issues concerning the Bay-Lake Region.

At the September 2016 Annual Meeting, I was elected Chairperson of the Commission; Terry Brazeau was elected Commission Vice-Chairperson; and Daniel Koski was elected as Secretary-Treasurer. I’d like to thank the staff and all the Commissioners for their time and professionalism. Working together enables the Commission to be a valuable resource for the region’s counties and local municipalities, as well as our partner organizations. Thanks to all for your continued support of the Bay-Lake Regional Planning Commission.

Respectfully,

Mike Hotz, Chairperson
Communities Within the Bay-Lake Region

The Commission

CREATION AND AUTHORITY
The Bay-Lake Regional Planning Commission (Commission) was created in 1972 under Section 66.0309 of the Wisconsin Statutes as the official area-wide planning agency for northeastern Wisconsin.

AREA COVERED BY THE REGION
The Bay-Lake region is composed of an area consisting of eight counties in northeastern Wisconsin, including the counties of Brown, Door, Florence, Kewaunee, Manitowoc, Marinette, Oconto and Sheboygan. The Bay-Lake Region is comprised of 185 units of government: eight counties, 17 cities, 40 villages, 119 towns, and the Oneida Nation of Wisconsin. The total area of the region is 5,433 square miles, or 9.7 percent of the area of the State of Wisconsin. The region has over 400 miles of coastal shoreline along Lake Michigan and Green Bay.

The Wisconsin Demographic Services Center 2016 population estimate of the region is 587,282 persons, or 10.2 percent of the estimated population of the State of Wisconsin (5,775,120).

ORGANIZATION
The Bay-Lake Regional Planning Commission is governed by Commissioners from each of the eight counties. Commissioners are appointed to serve on the Commission in one of three ways: (1) one Commissioner is appointed by each county board; (2) one Commissioner from each county is appointed by the Governor, and (3) one Commissioner is appointed by the Governor from a list of nominees provided by the county board. Nine of the 17 voting Commissioners are appointed officials or employees from the public sector, while eight are private citizens who are actively involved in local community affairs.
Community Assistance

The Commission’s Community Assistance Program is designed to strengthen local planning activities by providing a variety of professional technical assistance and planning services on a contractual basis. This includes writing and administering grants, as well as preparation of comprehensive plans, farmland preservation plans, outdoor recreation plans, hazard mitigation plans, tax incremental financing plans, community development documents, and zoning ordinances. These types of projects help meet local community needs by supplementing and complementing local planning efforts being undertaken by introducing a more regional approach to their projects. For communities where local planning departments do not exist, the Commission’s community assistance program has the ability to lead, administer, and implement programs and projects, as requested. In addition to the community assistance provided on a contractual basis, other activities were carried out by the Commission as part of the Commission’s GIS Department and through its Economic Development, Coastal Management, Regional Transportation Planning, and Sheboygan Metropolitan Planning Organization (MPO) programs.

COMPREHENSIVE PLANNING

Bay-Lake Regional Planning Commission Regional Comprehensive Plan

The regional comprehensive plan covers the eight-county Bay-Lake Region in northeastern Wisconsin. It serves as an advisory policy document which guides where future conservation, growth, and development should occur within the Region and is consistent with the Commission's planning principles.

- Updated portions of the inventory section of the Transportation Element of the Bay-Lake Regional Planning Commission’s Regional Comprehensive Plan as part of the Commission’s Regional Transportation Work Program.

- Updated the Natural, Agricultural, and Cultural Resources; Housing; Land Use; and Implementation elements of the Bay-Lake Regional Planning Commission’s Regional Comprehensive Plan as part of a Wisconsin Coastal Management Program (WCMP) grant award.
Local Planning Assistance

- Completed the Town of Riverview Comprehensive Plan update.
- Finalized an update to the Town of Manitowoc Rapids Comprehensive Plan.
- Prepared the Kewaunee County Comprehensive Plan update.
- Continued to update the Town of Cooperstown Comprehensive Plan.
- Assisted the Village of Lena in preparing a 5-Year Capital Improvements Plan.
- Continued to provide technical assistance to many municipal leaders, plan commissions, and plan committees of local jurisdictions from the counties of Kewaunee, Manitowoc, Marinette, Oconto, and Sheboygan during 2016 to inform them of the process and procedures for updating comprehensive plans.

PLAN IMPLEMENTATION

Zoning Assistance

- Began development of a code of ordinances for the Town of Brazeau.
- Initiated an update to the Town of Red River Zoning Ordinance.
- Began preparing an update to the Town of Casco Zoning Ordinance.
- Began updating the Town of West Kewaunee Zoning Ordinance.
- Started to update the Town of Luxemburg Zoning Ordinance.
- Provided technical assistance for zoning ordinances for the City of Kewaunee and the towns of Ahnapee, Casco, Franklin, Lincoln, Luxemburg, Pierce, and Red River in Kewaunee County.
- Provided technical assistance on zoning and other land use implementation for Florence County, the City of Marinette, and the Town of Gibraltar.

OTHER PLANS

Hazard Mitigation Planning

- Completed development of a hazard mitigation plan update for the Oneida Nation.
Farmland Preservation Planning

- Finalized an update to the Florence County Farmland Preservation Plan update.
- Completed the Kewaunee County Farmland Preservation Plan update.

Outdoor Recreation Planning

- Prepared a Wisconsin Coastal Management Program grant application to develop a Coastal Recreation Study for the lakeshore counties of Kewaunee, Manitowoc, and Sheboygan.

Brownfields Planning

- Prepared an EPA grant application to conduct a region-wide brownfields assessment.
- Prepared an EPA grant application for the City of Sheboygan to apply for Brownfields Areawide Planning funding.
- Continue to work collaboratively with the Wisconsin Department of Natural Resources (WDNR), Wisconsin Brownfield Coalition (WBC) members, and partner organizations to deliver professional environmental assessments to municipalities.

Technical Assistance Grant Program

- Provide technical assistance to member counties and communities using technical assistance funds from various programs under contract by the Commission. Under this program, communities can apply for up to 40 hours of free technical assistance to help them with a project.

  ~ In 2016, technical assistance was provided to the Village of Lena on the development of a Capital Improvements Plan.
Economic Development

The Commission was designated as an Economic Development District of the Economic Development Administration (EDA), an agency of the U.S. Department of Commerce, in 1980. EDA provides the principal funding to support the Commission’s economic development program for the eight-county region. For the past 36 years, the Commission has facilitated or participated in several community economic development initiatives (both locally and regionwide) that have added jobs and increased the tax base for counties and for local units of government.

COMPREHENSIVE ECONOMIC DEVELOPMENT STRATEGY (CEDS)

The Commission adopted its current Comprehensive Economic Development Strategy (CEDS) in 2012 for calendar years 2013, 2014, and 2015. The CEDS typically coincides with the 3-year planning grant awarded to the Commission by EDA to fund various activities, including preparing and maintaining a CEDS for the district. The process of updating the 2012 CEDS started in 2016, and is expected to be completed later in 2017.

An annual project solicitation was conducted in 2016 with the various municipalities within the region. These projects will be included in the updated CEDS as a listing of potential EDA fundable projects.

ECONOMIC DEVELOPMENT ACTIVITIES

- Completed and submitted required mid-year and year-end reports to EDA and participated in EDA’s quarterly teleconferences.

- Facilitated meetings in February with Lee Shirey of EDA and two local interested parties. Local economic development practitioners were able to meet with Mr. Shirey to discuss projects and ask questions regarding the EDA application and funding process.

- Conducted a comprehensive community and economic development project survey of member counties and communities.

- Provided information on community economic development programs and grants to communities and organizations as requested.
• Signed a contract with the Wisconsin Economic Development Corporation (WEDC) to provide economic development data and information utilizing EMSI Developer software and worked with several interested parties in using the software. Organizations and agencies continue to visit the Commission office to prepare EMSI reports.

• Provided letters of support to communities in the region that were submitting funding applications to various agencies for their projects.

• Facilitated a new technical assistance grant program for providing free planning services to one of the member communities of the Bay-Lake Regional Planning Commission. In 2016, the Village of Lena was awarded 40 hours of assistance for developing a 5-Year Capital Improvements Plan.

• Partnered with ECWRPC on marketing a new regional economic diversification program called Initiative 41. Funding of this program was through the Department of Defense Office of Economic Adjustment.

• Served on various business and technical advisory committees.

• Attended a Rural Economic Summit in Carter, Wisconsin.

• Began partnering with NewNorth and ECWRPC on a site certification program called Gold Shovel Certification where communities can have sites certified as ready to go; thus speeding up the process of attracting new businesses and creating jobs in the region.

• Continued to assist the City of Sheboygan with administering portions of its Revolting Loan Funds. Duties include tracking of job creation/retention, as well as, Davis-Bacon Compliance for construction projects.
Since 1990, the Commission has collected and maintained digital GIS files for areas in which it undertakes natural resource and planning projects.

The following data sets are available for most or all areas in which the Commission has completed project work:

- Base Maps
- Land Use Inventories
- Geology
- Soils
- Hydrography
- Watersheds
- Wetlands
- Floodplains
- Natural Areas
- Environmental Corridors
- Shoreland/Floodplain Zones
- Farmland Preservation
- Recreation Facilities
- Transportation Facilities
- Public and Community Facilities
- Past Land Use Plans
- Future Land Use Plans
- Census TIGER Files
- Air Photos
- Zoning

The Commission creates land use inventories, future land use plans, environmental corridors, and zoning files for communities throughout the Bay-Lake Region as part of its project work.

**DATA SHARING**

Data sharing is an important part of the Commission’s GIS program. Over the years, the Commission has formed partnerships that allow datasets and technical advice to be shared for projects that affect communities and citizens throughout the region and the state of Wisconsin. Without these partnerships, the Commission would not be able to complete projects that are so important to the region. Much of the data is obtained through data sharing agreements from other federal or state agencies, counties, and local governments.
GIS ACTIVITIES

- Completed two sexual offender residency restriction mapping projects for the City of Gillett and the Village of Wausaukee.
- Initiated a project to build an online and updateable street sign inventory service for Manitowoc County. This arcgisonline.com service will provide a cost effective alternative for staff to update the street sign inventory.
- Responded to regional data and aerial photography requests.
- Prepared several quotes requested by municipalities for mapping projects throughout the region.
- Prepared maps in support of Commission projects and plans, including hazard mitigation, comprehensive plans, zoning, and MPO transportation planning.
Natural Resources Planning

The Natural Resources program of the Bay-Lake Regional Planning Commission provides ongoing technical assistance to member counties and communities to preserve, protect, and enhance the Region's natural environment and recreation opportunities. The program is funded in part by the Wisconsin Coastal Management Program (WCMP), the U.S. Environmental Protection Agency (EPA), and the USDA Forest Service.

COASTAL MANAGEMENT PROGRAM

The Commission works with the Wisconsin Coastal Management Program in protecting, restoring, and making accessible the natural and cultural resources of Wisconsin’s Great Lakes Coasts. The Commission maintains its commitment to improve the management of Wisconsin’s Great Lakes coastlines and works cooperatively with WCMP in managing the ecological, economic, and aesthetic assets of Lake Michigan and its coastal areas.

- Provided technical assistance to WCMP and local, state, and federal governmental units on coastal projects and issues, including the coastal counties of Brown, Door, Kewaunee, Manitowoc, Marinette, Oconto, and Sheboygan.
- Participated on the Lake Michigan Stakeholders Steering Committee, the Niagara Escarpment Resource Network Steering Committee, the Green Bay Conservation Partners Steering Committee, Wisconsin Coastal Beaches Workgroup, the Lower Fox River and Green Bay Landscape Blueprint Workgroup, and advisory committees for the Green Bay and Lower Fox River Areas of Concern (AOC).
- Assisted communities within the Coastal Zone with preparing grants to WCMP, acquiring information on coastal resources, coastal hazards mitigation planning, and promoting awareness of coastal issues.
- Maintained data, and promoted the principles of the Bay-Lake Regional Environmental Corridor report that defines and delineates the Region’s environmental corridors.
WATER QUALITY PLANNING

The Commission works with the WDNR and EPA to improve and protect water quality through natural resources projects, land use planning, and encouraging municipal best management practices. The Commission undertakes water quality management planning cooperatively with local communities and the WDNR; and assists communities with sewer service area planning and beach improvement efforts.

Water Quality Management (Sewer Service Area) Planning

Under the guidance of NR 121, Wisconsin Administrative Code, the Commission develops and updates water quality management plans and provides review of sanitary sewer extension plans for new or existing development within the areas of the cities of Manitowoc, Two Rivers, and Marinette, the villages of Mishicot and Luxemburg, and the Sheboygan Urbanized Area. In 2016, the Commission completed an update to the Manitowoc-Two Rivers-Mishicot Sewer Service Area Plan, which serves the cities of Manitowoc and Two Rivers, and the Village of Mishicot.

Beach Improvement Planning

The Commission continues to work with coastal communities to implement beach improvement plans that were developed under an EPA Great Lakes Restoration Initiative (GLRI) grant received by the Commission in 2010 and an EPA Urban Waters Grant received for Bay Beach in Green Bay in 2012. Additionally, the Commission participates on the Wisconsin Coastal Beaches Workgroup.

ADDITIONAL NATURAL RESOURCES PLANNING ACTIVITIES

Emerald Ash Borer (EAB) Mitigation

In partnership with the Wisconsin DNR, East Central Wisconsin RPC, Northwest Wisconsin RPC, and Southeastern Wisconsin RPC, the Bay-Lake Regional Planning Commission awarded $82,450 to nine Wisconsin communities for projects to mitigate the impacts of EAB. Grant funds will support planting nearly 700 diverse, non-host trees in public areas in EAB-quarantined counties within the Wisconsin Great Lakes Basin to help recover from EAB losses or to bolster community preparedness for EAB.
The funding was made available through a U.S. Forest Service Great Lakes Restoration Initiative (GRLI) grant received by the Bay-Lake Regional Planning Commission in 2016.

The grant recipients in the Bay-Lake Region include the City of Plymouth for $10,000 to plant 100 trees, the City of Sheboygan for $10,000 to plant 50 trees, and the Town of Wilson for $5,000 to plant 35 trees.

**Invasive Phragmites Management in Green Bay and Fox River Area of Concern**

The Commission continues to work with municipalities, public and private landowners, and an advisory council of area land managers on an invasive species control project to manage at least 1,500 acres of Phragmites along the shorelines of Green Bay, the Fox River (to the De Pere dam), and the East River (northern section).
Sheboygan Metropolitan Planning Organization (MPO)

The Commission continued urban transportation planning activities as the MPO for the Sheboygan Metropolitan Planning Area, with the assistance of local technical and policy advisory committees. Transportation planning is required of metropolitan planning areas as a prerequisite to receiving federal funding for transportation projects. The Commission has served as MPO for the Sheboygan Metropolitan Planning Area since 1982. The MPO program is funded by the Federal Highway Administration (FHWA), WisDOT, Sheboygan County (local match for non-transit planning activities), and Shoreline Metro (local match for transit planning activities).

PROGRAM SUPPORT AND ADMINISTRATION

- Presented on MPO and other Commission activities to the Chairperson of the Sheboygan County Board.
- Conducted eight joint meetings of the Sheboygan MPO Technical and Policy Advisory Committees.
- Participated in meetings of the Commission and its Executive Committee at which MPO items were presented or acted upon.
- Reported on the status of 2016 work activities at a mid-year review meeting regarding the MPO Work Program with FHWA and WisDOT staff. A tour of transportation and development issues in the metropolitan planning area followed this meeting.
- Participated in the annual MPO/RPC/WisDOT transportation planning conference and participated in quarterly MPO Directors’ meetings.
- Developed and approved the 2017 Sheboygan Metropolitan Planning Area Transportation Planning Work Program, which is a component of the Commission’s overall Work Program.
- Assisted in the development, review and approval of the Cooperative Agreement for Continuing Transportation Planning for the Sheboygan, Wisconsin, Metropolitan Area.
LONG-RANGE TRANSPORTATION PLANNING

- Participated in quarterly meetings of the Wisconsin DNR Bureau of Air Management’s Transportation Conformity Work Group (TCWG).
- Monitored various Federal performance management measures.
- Monitored the USDOT metropolitan planning rule.
- Approved a change in the National Highway System (NHS) network in the metropolitan planning area.
- Completed the 2016 Public Participation Plan Update for the Sheboygan MPO.
- Added data to the 2015 transportation performance indicator report for the metropolitan planning area, which was presented to the Sheboygan MPO Technical and Policy Advisory Committees.
- Prepared and presented the 2016 transportation performance indicator report for the metropolitan planning area to the Sheboygan MPO Technical and Policy Advisory Committees.
- Attended a public hearing regarding WisDOT’s State Freight Plan.

SHORT-RANGE TRANSPORTATION PLANNING

- Assisted Shoreline Metro in preparing Community Development Block Grant (CDBG) quarterly progress reports and in preparing the annual CDBG grant application.
- Provided Shoreline Metro with estimates of eligible riders for Section 5310 reports.
- Participated in quarterly meetings of the Northeast Wisconsin Regional Access to Transportation Committee (NEWRATC).
- Prepared a report summarizing findings of the Shoreline Metro passenger opinion survey conducted in December 2015; this report was presented to the Sheboygan Transit Commission and to the Sheboygan MPO Technical and Policy Advisory Committees.
- Participated in several meetings with Shoreline Metro, the Sheboygan County Economic Development Corporation and other parties to discuss studying the feasibility of employment transportation in and near the metropolitan planning area.
- Completed the 2016 Coordinated Public Transit – Human Services Transportation Plan for Sheboygan County.
• Provided technical assistance to Shoreline Metro in answering questions from the Federal Transit Administration (FTA) to prepare for the transit operation’s 2017 triennial review.
• Signed the Title VI Non-Discrimination Agreement between the Commission and WisDOT.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

• The final 2016 – 2019 Sheboygan Metropolitan Planning Area TIP was distributed.
• The Annual Listing of Obligated Projects for Calendar Year 2015 was placed on the Sheboygan MPO webpage and was reviewed with members of the Sheboygan MPO Technical and Policy Advisory Committees.
• Mid-year amendments to the 2016 – 2019 Sheboygan Metropolitan Planning Area TIP were processed, including one major amendment and three minor amendments.
• Commission GIS staff prepared an ArcGIS online project involving web mapping of the 2016 – 2019 Sheboygan Metropolitan Planning Area TIP. The project was presented at the annual MPO/RPC/WisDOT transportation planning conference.
• The 2017 – 2020 Sheboygan Metropolitan Planning Area TIP was produced, approved, published and distributed.
The Commission has provided rural multi-modal transportation planning services since 1972 to address both areawide and local transportation issues. The Regional Transportation Work Program is funded by the Federal Highway Administration (FHWA), the Wisconsin Department of Transportation (WisDOT), and with matching funds from the Commission. Additional revenues to support the program came from local and regional contracts.

**PROGRAM ADMINISTRATION**

- Completed the 2017 Regional Transportation Work Program for the Bay-Lake Region.

**TRANSPORTATION PLANNING ACTIVITIES**

- Prepared a successful Transportation Alternatives Program (TAP) grant application to WisDOT for a Regional Bicycle and Pedestrian Plan.
- Continued to assist the City of Marinette with the administration of the city’s Shared-Ride Taxi Program, which included preparation and submittal of the 2017 application for federal and state assistance to operate the transit system.
- Assisted the Mobility Manager for Marinette and Oconto counties by providing background data and other materials relevant to transit and human services transportation coordination.
- Facilitated quarterly meetings of the Northeastern Wisconsin Regional Access to Transportation Committee (NEWRATC) in cooperation with staff of the East Central Wisconsin Regional Planning Commission. The committee was created for the purpose of coordinating and developing a regional committee to systematically address access to transportation for at-risk populations with special needs.

• Provided technical assistance for bicycle and pedestrian facilities planning for the City of Marinette and City of Algoma.

• Initiated work on a regional Bicycle and Pedestrian Plan as part of a Transportation Alternatives Program (TAP) grant award.

• Updated portions of the inventory section of the Transportation Element of the Bay-Lake Regional Planning Commission’s Regional Comprehensive Plan.
2016 Publications

Publications are available for download on the Commission’s website at: http://www.baylakerpc.org/about/publications or under Publications can also be found under several of the Commission program elements listed on the Commission’s website.
